

# Service expanding

COMEPASS Employment Services is undergoing a massive expansion.

Seven new Comepass offices will open after the Oxley-based parent organisation, Westside Community Services won significant new contracts.

New services will operate at Ipswich (Mondays), Capalaba (Tuesdays and Thursdays), Inala (Thursdays), Mitchelton (Mondays and Wednesdays), Nundah (Tuesdays and Thursdays), Victoria Point (Mondays

and Wednesdays) and Upper Mt Gravatt (Mondays and Wednesdays).

The offices will help job seekers with disabilities find work.

Comepass has negotiated use of office space with Sarina Russo Job Access and will be operating from Sarina Russo Job Access' offices in each of those suburbs (except Inala and Ipswich) from 9am to 5pm.

In Inala Comepass will operate from The HUB Neighbourhood Centre on Thurs-

days from 9am-4.30pm for the next three months.

In Ipswich Comepass will operate from Max Network Employment's office on Mondays.

"We'll be working closely with employers in all these areas to help them tap into this valuable candidate pool," managing director Tony Smith said.

"Comepass helps people with a disability find and retain jobs in the general workforce.

## Stylers body Works *Smash Repairs*

Stylers body Works Smash Repairs established since 1965 relocates after 41 years at Zillmere Rd Boondall. They have grown to now employ 13 staff with 6 apprentices.

They have moved to Northgate Business Park - 109 Crockford St Northgate - to a purpose built panel shop - over 1000 sqm factory, with all new equipment and booths for that new car feeling.

They are ready for business to help turn the negative experience of having an accident into a positive one.

QUEST COMMUNITY NEWSPAPERS

# Don't be blind to powerlines

Contact with powerlines can be fatal. Make sure you know where powerlines are situated around your home and take note of lines that could potentially be a problem. You need to be particularly careful when working on ladders and rooftops or carrying long objects like poles or pool skimmers. You also need to take care when launching any boat with a tall mast.

Don't be blind to powerlines...it only takes one touch to end it all.

To report fallen powerlines call **13 19 62** immediately or for more information visit [www.energex.com.au](http://www.energex.com.au)

## Look up and live
